## PROFESSIONAL SUMMARY

Experienced WordPress developer with over three years of experience in delivering comprehensive web solutions. My expertise covers e-commerce sites, membership portals, online learning platforms, multi-vendor marketplaces, real estate websites, and community directories. Proficient across the entire WordPress ecosystem—including custom theme and plugin creation, WooCommerce, Advanced Custom Fields (ACF), Elementor Pro, Divi, WPBakery, as well as custom PHP, JavaScript, and CSS. I excel at transforming Figma designs into precise, responsive websites, developing custom plugins to minimize reliance on third-party tools, and integrating services like Google Sheets, Vimeo, LMS platforms, SEO tools, and payment gateways. Additionally, I conduct performance audits, optimize Core Web Vitals, configure SEO settings, and offer ongoing support, blending technical expertise with a client-focused approach.

| • Google Sheets API Integration  | • Multi-Vendor Marketplace (WCFM)    | • Kit (ConvertKit) / Email Automation |

## WORK EXPERIENCE

---

### WordPress Developer

**CODESFIX** | Jul 2022 – Present

- Designed and launched WordPress websites for healthcare, e-learning, logistics, retail, real estate, wellness, and community sectors — consistently delivering responsive, high-performance results on time and within scope.

- Developed comprehensive website architectures from inception, encompassing site maps, navigational structures, and page layouts, by converting Figma designs and client specifications into seamless, fully operational web platforms.
- Customized and constructed WordPress themes using Elementor Pro, Divi, Beaver Builder, WPBakery, and custom PHP, meticulously tailoring templates to align with specific branding and user experience requirements with pixel-perfect precision.
- Developed and integrated plugins such as Contact Form 7, Gravity Forms, Slider Revolution, LiteSpeed Cache, WP Rocket, FunnelKit, and Rank Math to ensure seamless functionality and optimized performance.
- Built robust WooCommerce and WooCommerce Subscription stores with custom payment gateway integrations, dynamic pricing rules, and region-based product restrictions supporting full e-commerce and multi-vendor workflows.
- Engineered secure, scalable membership platforms using Paid Memberships Pro, WooCommerce Memberships, Membership.io, and ARMember — with custom role-based access control, post-expiry logic, and user dashboards.
- Built custom WordPress plugins from scratch for features like orientation video gates, license management, Google Sheets automation, QR code generation, registration code systems, and frontend CRUD post submissions.
- Integrated and configured LMS platforms (Tutor LMS, LearnDash) with WooCommerce and subscription systems, enabling automated e-learning environments with quiz engines, progress tracking, and certificate generation.
- Set up and customize multi-vendor marketplaces using WCFM Marketplace, including advanced search filtering and custom PHP/JavaScript solutions tailored to the platform's needs.
- Configured Rank Math SEO and integrated Google Search Console to enhance search visibility and monitor site performance metrics for ongoing SEO improvements.
- Performed performance audits with WP Rocket and custom code snippets to fix speed issues, improve Core Web Vitals scores, and ensure consistently fast load times.
- Implemented ACF across projects to power dynamic content sections, custom post types, and flexible user interfaces without exposing the WP dashboard to end users.
- Provided post-launch support, ongoing improvements, and technical training to clients, fostering long-term relationships and repeat business.

## KEY PROJECTS

---

### Block Guides

URL: <https://blockguides.net/>

**Tools:** *Elementor Pro, WooCommerce, Woo Subscriptions, Woo Membership, ACF, PHP, FunnelKit*

Converted a detailed Figma design into a fully responsive WordPress website using Elementor Pro. Integrated WooCommerce Subscriptions and Membership plugins to manage paid content access across a large informational platform. Used ACF to create dynamic content sections and embedded interactive Sketchfab 3D models for product visualization. Configured FunnelKit to enhance the checkout process, boosting conversions. Ensured a responsive layout and quick load times across all devices.

## **Vision2Impact**

**URL:** <https://vision2impact.co/>

**Tools:** *Elementor Pro, LearnDash, Figma to WordPress*

Converted Figma designs into a fully functional and responsive WordPress website using Elementor Pro, ensuring pixel-perfect implementation across all screen sizes. Integrated LearnDash to support a seamless online learning experience, including course pages, student access controls, and progress tracking.

## **Vision2Impact Custom Plugin**

**URL:** <https://github.com/codesfix-official/vision-impact-solutions>

**Tools:** *PHP, Google Sheets API, JavaScript, CSS, HTML*

Built a custom WordPress plugin that includes a mandatory orientation video gate users must watch before accessing the website. Integrated Google Sheets with automated cloning of a master sheet based on user roles. Created a dynamic profile page showing LMS progress and insights. Developed a license management system for admin approval or denial of user access. Built a leadership and resource management system using custom post types with custom frontend templates. Implemented an automated birthday alert email system for administrators.

## **Verizen Coaching**

**URL:** <https://verizencoaching.au/>

**Tools:** *Elementor Pro, Tutor LMS, WooCommerce, SUMO Subscriptions*

Built a comprehensive online coaching and course platform using Tutor LMS. Set up instructor profiles, student dashboards, course modules, and a streamlined enrollment process. Integrated WooCommerce with SUMO Subscriptions for recurring billing of course access. Customized the checkout, course pages, and overall user experience with Elementor Pro and custom PHP, resulting in a clean, mobile-responsive learning platform.

## **Momboss Space**

**URL:** <https://momboss.space/>

**Tools:** *Elementor, WCFM Marketplace, Custom PHP, JavaScript*

Set up and configured a fully functional multi-vendor marketplace using WCFM Marketplace. Developed custom PHP and JavaScript solutions to enable advanced and diverse search filtering

features tailored to the platform's needs. Redesigned and improved various sections of the website to enhance overall user experience and visual consistency.

## **Memorie Pet**

**URL:** <https://memoriepet.com/>

**Tools:** *Paid Memberships Pro, WP User Frontend, ACF, PHP, JavaScript*

Converted a Figma design into a fully responsive membership-based WordPress website. Integrated Paid Memberships Pro to manage tiered content access and membership rules, including post expiry and visibility toggles. Built an ACF-powered video gallery and a QR code generator for shareable memorial pages. Developed a frontend post management system that allows users to create, edit, delete, and control the visibility of their own content without accessing the WordPress admin.

## **Rhythms of Renewal Membership**

**URL:** <https://advancedwellnesscenter.net/>

**Tools:** *Membership.io, Kit (formerly ConvertKit)*

Managed and delivered seasonal content for a wellness membership community. Used Kit to coordinate weekly member meetings and share a recurring seasonal blog. Content was organized and rotated based on the current season to keep members engaged and aligned with the program's wellness themes.

## **When I Get To Prison**

**URL:** <https://whenigettoprison.com/>

**Tools:** *Elementor, WP User Frontend, ACF, Ultimate Member, Custom Code (HTML, CSS, JS, PHP)*

Built a searchable user directory, created custom post types for user stories based on ACF, and developed a frontend submission system so users never need to access the WordPress dashboard. Designed custom profile pages with full CRUD functionality — create, edit, delete, and visibility controls — using HTML, CSS, JavaScript, and PHP. Integrated Ultimate Member to manage user registration, profiles, and role-based access.

## **Fretstraps**

**URL:** <https://www.fretstraps.com/>

**Tools:** *ACF, Vimeo API, Custom WordPress Plugin, PHP, JavaScript, HTML, CSS*

Built a custom video content management system using ACF and the Vimeo API to dynamically store, retrieve, and display guitar lesson videos. Developed a YouTube-style playlist interface for smooth video navigation and user engagement. Created a custom WordPress plugin from scratch to generate, store, and manage unique invitation-only registration codes, with CSV export functionality in the admin dashboard for easy distribution and tracking.

## **Hyperspace Props**

**URL:** <https://hyperspaceprops.com/>

**Tools:** *UX Builder, WooCommerce, BuddyPress, PHP, Custom Code*

Implemented advanced WooCommerce logic to dynamically adjust subscription product pricing based on user geolocation — charging different rates for USA versus non-USA customers. Integrated and extensively customized BuddyPress to support community features including enhanced user profiles, activity streams, group management, and member directories. Ensured full compatibility between WooCommerce Subscriptions and BuddyPress for a seamless, unified user experience.

### **Nor Fleet Transportation**

URL: <https://norfleettransportation.com/>

Tools: *Elementor Pro, Gravity Forms, LiteSpeed Cache*

Designed and developed a professional, fully responsive website for a logistics and transportation company. Focused the design on clarity, reliability, and strong calls to action to support lead generation. Integrated Gravity Forms for service inquiries and LiteSpeed Cache with optimized performance settings to deliver fast load times and improved Core Web Vitals scores.

### **Suffolkdbtjl**

URL: <https://suffolkdbtjl.com/>

Tools: *WP Rocket, Code Snippets*

Conducted a thorough website speed optimization to boost overall performance and loading times. Identified and fixed key technical issues that were slowing down the site. Added custom code snippets along with WP Rocket settings to further improve performance and enhance Core Web Vitals scores.

### **Doug Hansen Real Estate**

URL: <https://doughansenrealestate.com/>

Tools: *Rank Math SEO*

Configured and set up the Rank Math SEO plugin to improve the website's search engine visibility. Integrated the site with Google Search Console to monitor traffic, track performance metrics, and find areas for ongoing SEO enhancement.

### **Master Tattoo Institute**

URL: <https://www.mastertattooinstitute.com/MTI/>

Tools: *WPBakery Page Builder, Contact Form 7, Custom CSS, Responsive Design*

Customized and enhanced multiple sections of an existing website using WPBakery Page Builder, ensuring a fully responsive design across desktop, tablet, and mobile devices. Improved the course listings interface with dynamic shortcodes, custom post types, and responsive grid layouts. Integrated and styled a Contact Form 7 newsletter signup form with custom validation and branding.

### **L&D Free Spirits**

URL: <https://ldfreespirits.com/>

**Tools:** WPBakery, ARMember, PHP, JavaScript, HTML, CSS

Built a frontend post management system allowing users to create, edit, and delete custom posts without accessing the WordPress admin. Utilized ARMember to manage user registration, login, profile visibility, and role-based access control. Developed a searchable and filterable user directory using ARMember profile fields to help members discover and connect with each other.

## **Coded Crime**

**URL:** <https://codedcrime.com/>

**Tools:** Elementor, Formidable Forms, PHP, Custom Code

Created a privacy-focused, hint-based crime reporting directory that allows the public to share information without revealing full identities. Users submit partial details — such as the first three letters of a name and a postal code — enabling community-driven reporting while maintaining confidentiality. Built frontend submission forms and display logic using Elementor and Formidable Forms, with custom PHP to manage data privacy rules and search functionality.

## **PrepExpert**

**URL:** <https://prepexpert.co.uk/>

**Tools:** Elementor, Figma To WordPress. ACF, LMS

Converted Figma designs into a fully responsive WordPress website using Elementor, ensuring pixel-perfect implementation across all screen sizes. Integrated an LMS platform to support course delivery, student access, and progress tracking. Used ACF to build dynamic content sections and flexible page templates tailored to the platform's structure.

## **Lavitalis Live**

**URL:** <https://lavitalis.live/>

**Tools:** Elementor, Figma To WordPress. ACF, WooCommerce, WooSubscription, WooMembership, LMS

Converted Figma designs into a fully responsive WordPress website using Elementor, ensuring pixel-perfect implementation across all screen sizes. Built a WooCommerce store integrated with WooCommerce Subscriptions and Membership plugins to manage recurring billing and tiered content access. Integrated an LMS platform to deliver course content alongside membership-gated access, with ACF used to power dynamic content sections throughout the site.

## **Custom Video Library**

**URL:** <https://github.com/codesfix-official/custom-video-library>

**Tools:** Custom PHP Plugin, ACF, WooCommerce, WooCommerce Subscriptions, WooCommerce Memberships, JavaScript (Web Audio API), REST API

Built a custom WordPress plugin from scratch to manage a video and audio content library with flexible monetization. Developed a unified content type supporting YouTube, Vimeo, and

self-hosted media, plus an audio player with an interactive waveform visualizer and a server-side streaming proxy to handle Google Drive and Dropbox sources. Implemented a layered access-control system combining free content, WooCommerce purchases, Subscriptions, and Memberships to gate content per item. Created shortcodes for free, paid, and private library views, along with AJAX-based playback progress tracking and a wishlist system stored in a custom database table.
